INTRODUCTION:-

The Kurjibhai Ramji Group has achieved some of the most prestigious projects in Mauritius / Seychelles / Rodrigues. Over the past few years, the Group has expanded its business activities in India & UK

Allied Builders (Seychelles) Limited is the construction division of the Kurjibhai Ramji Group of Companies (KRG Group) with its Head Office in Mauritius and which operates through separate and independent establishments in Mauritius, Seychelles, Rodrigues and India. Allied Builders was incorporated in the year 1980 as a Class-I Building and Civil Engineering Contractors. We are the first ever ISO 9001-200 Certified Construction Company in Seychelles.

While each organisation in the Kurjibhai Ramji Group operates independently, the common thread running through us is the shared vision of sustainable development through quality work and community development. Starting from modest beginnings and following years of hard work and its sustainable growth programme, the Group now has various businesses operating successfully in the following business sectors:

The Kurji Ramji Group Management Team includes:

1. Mr. K.K. Patel, G.O.S.K. Group Chairman
2. Mr. L.K. Patel, Group Director
3. Mr. H.K. Patel, Group Director
5. Mr. Vinay Patel, Group Director

Allied Builders has been associated with various Ministries of the Government of Seychelles as also various private business groups. Over the past 35 years of its operation, the company has successfully completed an impressive and diversified portfolio of building and civil engineering contracts. They commenced the first project with the Seychelles International Airport, which was the stepping stone which started rolling further with many other projects

During the last 35 years of sheer dedication, we have been entrusted by client be it private or government, considering our organization's objective of providing quality job on time and at affordable price. We are committed to return true value for the clients' investment

The Kurjibhai Ramji Group is consisting of various businesses as mentioned below:

1. Building and Civil Engineering Construction,
2. Hotels,
3. Real Estate,
4. Property Development
5. Trading and Commerce
6. Care Homes
7. Agro investment
8. Offshore Unit

IN HOUSE BACK UP SERVICE

The following manufacturing facilities located at Les Mamelles & Providence which are able to service with ease number of concurrent large scale projects:-

JOINERY:

FULLY EQUIPPED JOINERY & CARPENTRY WORKSHOP AT LES MAMELLES

Our Joinery Division has been established for 25 years, during which it has evolved from specializing in timber and panel processing to dealing with specialist finishes involved in today's fit out contracts.
We currently work with acrylics, specialist glass, fabrics and architectural metalwork alongside fine hardwoods to deliver high spec, fit out, solutions for residential, hotels and commercial projects.

WELDING WORKSHOP

FULLY EQUIPPED FABRICATION WORKSHOP AT PROVIDENCE

STEEL WORKSHOP

REINFORCEMENT BENDING & CUTTIGN WORKSHOP AT PROVIDENCE

MECHANICA L WORKSHOP

FULLY EQUIPPED MECHANICAL MAINTENANCE WORKSHOP AT PROVIDENCE

PROJECT MANAGEMENT

Each project is managed full time by an experienced Project Managers/ Site Agents/ Site Engineers and is overseen by a Director of the com pany. All necessary professional staff are appointed to run project works as effectively as possible.

Management is dynamic and addresses the normal client's expectations of projects delivered on time. to agreed cost and quality parameters.

The company operates an up to date system of internal management procedures and controls all works on the principles of a quality assurance system. This is regularly reviewed.
The company ensures that each member of staff or worker is given tasks commensurable with his or her training and experience and clearly understands his or her work responsibilities. These include the notion of achieving quality work first time.
For site works management. specialised foremen are deployed to the key zones of work as identified in the master program. The zonal foremen are closely accountable to the Project Manager.
The Specialist Subcontractors and suppliers are equally resourced and managed for time. cost and quality control.
With computer assistance labour and materials resourcing is managed from the elements of the master program.

The company runs a safety policy in respect of all staff. workers and third parties. This policy which is regularly reviewed. addresses accident prevention and site safety management including protective measures and all safety procedures to be followed. The company employs a safety Officer.
